**Reply to Office action of July 15, 2005**

**REMARKS/ARGUMENTS**

The Examiner and Applicant's representative had a telephone interview on July 5, 2005 that is summarized in the Examiner's Interview Summary mailed July 15, 2005. Clarifying the Examiner's summary, the database including formulary records and the service center server supply of formulary record(s) upon request by a pharmacy client system are among the novel features of claim 1 over the cited references.

In a brief conversation with the Examiner in December 2005, the Examiner indicated that a further search had identified new art.

As such, it is considered that the rejections contained in the Office action dated December 21, 2004 have all been addressed in the July Interview.

Respectfully submitted,
